

Crib Gogh: Constrictor-2 Jump

Part Number: 1230

Product Description:

- **Fabric Specifications:**

- 1000D PU backed Polyester
- Available in Black, OD, Coyote and Multi-Cam
- All CG fabrics are 'REACH' Compliant and come with full certification.

- **Technical Specifications:**

- BS 13407:1999 - Human-centred design processes for interactive systems
- ISO 105 B02: 2000 amdt 2.2000 – Tests for Colour Fastness
- ISO 13934-1-1999 Tensile testing standard determining fabric strength
- ISO 13937-2000 Textiles - Tear properties of fabrics -- Part 1: Determination of tear force using ballistic pendulum method (Elmendorf)
- ISO 811-1981 - Textile fabrics -- Determination of resistance to water penetration -- Hydrostatic pressure test
- FMVSS 302 title 49 section 571.302 – Flammability of interior materials (Phosphorous test)
- BS 5131, part 11: 1981 (1992) Buckle Strength (derived from foot wear as no vest standard existed)
- ISO 2062: 2009 - Textiles -- Yarns from packages -- Determination of single-end breaking force and elongation at break using constant rate of extension (CRE) tester.
- BS 3084: 2006 performance code c – Slide Fasteners
- STANAG 2895 Extreme climatic conditions and derived conditions for use in defining design/test criteria for NATO forces materiel. Operational zones from -40° to + 50°
- EU Regulation 1907/2006 REACH - 138 substances in candidate list.
- BS 5131, Part 11 : 1981 (1992) Tear Strength of straps (derived from foot wear as no vest standard existed)

- Unique weight distribution system developed with the royal college of physicians offering unprecedented comfort
- All Crib Gogh designs enhance the end user experience and the Constrictor-2 Jump offers best in class for comfort and cooling
- To date the only Combat rucksack Tested and Certified to meet a NATO standard STANAG 2895 proving it performs from - 40° to +50°. A truly Global Solution

Product Description: Constrictor Global

Offering MOLLE, Crampon loop and 6 lash/anchor points on the bag

Unique Design features for Hydration with an added internal hydration bladder

Unique drop options from single to double

- Weight 1.90 KG
- Dimensions 50cm High 28cm wide 21cm deep max. with 6 compression straps
- Top loading and front loading capabilities
- Internal admin pocket
- 2 quick anchor points for single drop and two static drop lines
- Unique grab handle system to maximise casualty evacuation in extreme environments
