

Crib Gogh: Constrictor Global

Part Number: 1227 (B)

Product Description:

- **Fabric Specifications:**

- 1000D double PU backed Polyester
- Available in Black
- All CG fabrics are 'REACH' Compliant and come with full certification.

- **Technical Specifications:**

- BS 13407:1999 - Human-centred design processes for interactive systems
- ISO 105 B02: 2000 amdt 2.2000 – Tests for Colour Fastness
- ISO 13934-1-1999 Tensile testing standard determining fabric strength
- ISO 13937-2000 Textiles - Tear properties of fabrics -- Part 1: Determination of tear force using ballistic pendulum method (Elmendorf)
- ISO 811-1981 - Textile fabrics -- Determination of resistance to water penetration -- Hydrostatic pressure test
- FMVSS 302 title 49 section 571.302 – Flammability of interior materials (Phosphorous test)
- BS 5131, part 11: 1981 (1992) Buckle Strength (derived from foot wear as no vest standard existed)
- ISO 2062: 2009 - Textiles -- Yarns from packages -- Determination of single-end breaking force and elongation at break using constant rate of extension (CRE) tester.
- BS 3084: 2006 performance code c – Slide Fasteners
- STANAG 2895 Extreme climatic conditions and derived conditions for use in defining design/test criteria for NATO forces materiel.
- EU Regulation 1907/2006 REACH - 138 substances in candidate list.
- BS 5131, Part 11 : 1981 (1992) Tear Strength of straps (derived from foot wear as no vest standard existed)

- Unique weight distribution system developed with the royal college of physicians offering unprecedented comfort
- All Crib Gogh designs enhance the end user experience and the Global offers best in class for comfort and cooling
- To date the only commercial rucksack Tested and Certified to meet a NATO standard STANAG 2895 proving it performs from -40° to +50°. A truly Global Solution

Product Description: Constrictor Global

Offering two main compartments and two external quick access pockets

Unique Design features for Hydration with an added internal hydration bladder

Unique compression system to manage the load from top to bottom and from back to front

- Weight 2.19 KG
- Dimensions 42cm High 29cm wide 22cm deep max. with 6 compression straps
- Pocket one 42Hx29Wx10D cm with 3 internal wand pockets, hydro bladder stay one large zip pocket 1 Y-compression strap
- Pocket two 42Hx29Wx6D cm with 1 large zipped pocket 1 Y-compression strap
- 2 quick access pockets with internal wand pockets and admin compartment
- Unique grab handle system to maximise casualty evacuation in extreme environments
